

# Fashion Statement

## ARTIST INFORMATION

Mary Stanley Studio is curating a new exhibition for fall 2008. ***Fashion Statement*** will contrast vintage photography fashion statements with contemporary photography and video work commenting on fashion and how it shapes our 21<sup>st</sup> century reality. Fashion choices provide clues to our identity, how we feel about ourselves and how we want to be perceived. As seen through the eye of a talented artist, these fashion statements provide us with humor and insight as we consider the direction of our modern existence.

In an effort to address this issue from a diverse perspective, artists from all nations are invited to submit photography, video and new media work on the following themes for consideration:

- Pop culture and personal identity statements
- A fashion trend that has taken a new twist
- Change in cultural attitudes toward certain activities or behaviors
- Dress code violations
- Innovative use of accessories as art forms
- The impact of photography in creating fashion icons and idols
- Other pertinent fashion statements

This exhibition will be presented in conjunction with the 10th **Annual 2008 Atlanta Celebrates Photography (ACP) Festival**, this exhibition will take place during the month of October in Castleberry Hill at the *The Big House* (next to the Granite Room) and will be curated by Mary Stanley from submissions.

During October Castleberry's Art Community will be having an Art

## **ADDITIONAL EXPOSURE**

With permission of the artist, there will be opportunity for selected work, in addition to that exhibited in Castleberry, to be placed at a variety of high end venues in downtown, midtown and other urban locations. Tours of these locations will be available to the public and to the media by appointment.

## **VERY SPECIAL EVENTS**

Artists who would like to present artist talks or have a private reception (wild party at the exhibition site) for their people (and any of mine that you want to target) can work with the curator to plan & implement these incredibly special events at an additional cost. Collaboration between the selected artists could provide opportunities to have additional events or exhibitions hours at a nominal cost to all. (i.e. we can all share the costs).

## **TAKING IT ON THE ROAD**

This exhibition will also have the potential to travel to other international art fairs and venues. Mary Stanley Studio participates in art fairs and is connected with curators and galleries throughout the US and internationally.

## **SUBMISSIONS:**

By post to: **Mary Stanley Studio**  
211 Fifteenth Street, NE  
Atlanta, GA 30309  
404.892.3211
